4//To comprehend the innovation expressed on Turin Brakes: Ether Song is to step into a mellow and yet highly evocative vibe. 'Full of Stars' and 'Panic Attack' revels in a purposely raw, un-mastered sound whereas 'Little Brother' and 'Average Man' concentrate on instrumentation and an addictive chorus true to anybody who identifies with the British pub scene. 'Long Distance' sounds like it should be on vinyl and a breathtaking finale to the CD is 'Rain City', which produces shivers of gladness that musicians still know how to write and harmonize the soul. This album is both poetically harmonic and instrumentally instructive; this band is headed for the best of times on and off the charts.
